DEVOTED DOG LEADS SEARCHER TO BODY OF DROWNED MASTER

CONTRA COSTA COUNTY HAS RECORD FOR TWO HOLIDAYS. TWO DEAD AND THREE NOT EXPECTED TO LIVE

Sunday and Monday of this week established a severe fatality record for Contra Costa county. Of seven cases reported to the authorities 3 have had their ending at the morgue while three others are hovering on a filmy thread between life and death.

WALNUT CREEK, Sept. 8.—Geo. O. Duncan, a rancher of the San Ramon valley, while walking along Walnut Creek yesterday afternoon happened upon an Airdale terrier dog which was sitting on the bank of the stream barking fiercely.

The dog would, at intervals, rush into the water and bark again as if he was trying to get something. Duncan walked to the edge of the bank and peering over saw the blue strap of a pair of overalls bobbing up and down in the creek ripples.

Plunging into the water he secured the end of the strap and pulled to the surface the form of a boy.

Meanwhile the little terrier barked with joy because his master had been found.

A small book found on an inside pocket disclosed the drowned boy's name as Willie Connors, his age as 17 years and his address as Oakland.

In his hand was grasped a fishing pole which showed that he had met his death while engaged in that pastime. The body was removed to the Martinez morgue where it will be held pending the arrival of his parents.

The authorities has considerable difficulty in locking the dog out of the morgue room as he made several vicious attempts to stay by the body of his dead master.

WOMAN SHOT BY ACCIDENTAL DISCHARGE OF GUN

WALNUT CREEK, Sept. 7.—Mrs. Emma Pucchi of Oakland was accidently shot in the breast today by Robert Love of this place, as she was about to get into an auto. From meager details learned of the affair Mrs. Pucchi, together with a party of friends, had been enjoying a motor trip through the San Ramon valley when Love, a member of the party, thought he saw a rabbit running through the underbrush along the road. He alighted and after discharging one barrel of the shot gun at the animal returned to the car. As he opened the door to the machine he tripped, catching the triggers of the gun on an auto robe which discharged the other barrel.

Mrs. Pucchi was rushed to the Merritt hospital in Oakland where little hope is held for her recovery.

FALLS FROM LADDER AND BREAKS NECK

CONCORD, Sept. 7—Charles Lewis, a farm hand employed on a San Ramon valley ranch near this place, while engaged in shingling the roof of a barn, fell from his position to the ground, breaking his neck. His death was almost instantaneous.

SMALL BOY RUN OVER BY AUTO

WALNUT CREEK, Sept. 7.—Geo. Welch, 12 years of age, son of Manuel Welch of this city, while playing near Mt. Diablo park was run over by an auto driven by William Layton of Oakland.

The little fellow when picked up was found to be bleeding profusely from the mouth so that it is feared he is suffering from internal injuries. The running over of the boy was accidental.

John Lindsey, of Giant, killed in auto accident.

Mrs. Emma Pucchi, of Oakland, accidently shot in breast by Robert Love. Taken to Merritt hospital, Oakland, where little hope for recovery is held.

Charles Lewis, farm hand of Concord, falls from ladder and breaks neck. Death instantaneous.

George Welch, of Walnut Creek, struck by auto driven by William Layton of Oakland. Internal injuries.

O. Salpien and P. Pizzimenti, two fishermen, in gun duel on Suisun bay. Salpien shot in both legs. Taken to Martinez.

John Leander dies as result of pistol duel at Concord.

Willie Connors, of Oakland, drowned while finshing in Walnut Creek.

LEANDER DIES FROM BULLET WOUNDS

FAILS TO SURVIVE PISTOL DUEL FOUGHT WITH FONSECA IN CONCORD.

MARTINEZ, Sept. 8.—John Leander of Haywards, who was shot in a pistol duel with Joseph Fonseca in Concord on Sunday, died at the county hospital today at noon. Although Leander had 5 wounds including a bullet in his abdomen, he was conscious up to the time of his death. Leander was 36 years of age.

Leander and Fonseca were enemies of long standing as the result of a fist fight they had years ago. They met Sunday for the first time since. Fonseca knocked Leander down by striking him in the face. Leander replied by pulling a revolver which he fired, the bullet hitting Fonseca in the left limb, shattering the bone. Fonseca then drew his gun and fired five shots into the body of Leander.

Nothing is known here of Leander's Haywards connections.

Fonseca is being treated in the county hospital here for his wounds.

AUTO TURNS TURTLE NEAR GIANT; ONE IS KILLED

JOHN LINDSEY, SON OF POLICE JUDGE WM. LINDSEY, OF THIS CITY, DIES AT THE CRAVEN HOSPITAL WITH BROKEN BACK.

John Batcheldor Lindsey, of Giant, son of Police Judge William Lindsey, of this city and member of Richmond lodge B. P. O. E., died at the Craven hospital yesterday afternoon from a broken back which he received in an auto accident on Sunday.

Lindsey, accompanied by his son, Roy Lindsey, Harry Hall and John Felix, had left Giant on Sunday morning and were proceeding to cross the main line of the Santa Fe a few miles below that town, when a passing train caused them to stop. In endeavoring to back away from the crossing, Lindsey misjudged his leeway on the road and went over an embankment.

As the machine, a Ford, turned turtle it threw the other members of the party out but pinned Lindsey to the ground.

He was rushed to the Craven hospital where Dr. C. L. Abbott who had been called in, stated that Lindsey had a fractured spine.

Police Judge Lindsey who was visiting in Santa Rosa at the home of his son-in-law, Dr. Jackson Temple, was immediately notified and he hurried to this city. For a short while Sunday night it was thought that Lindsey had a bare chance of pulling through, but a sudden relapse which overtook him at an early hour yesterday morning sapped the last of his vitality and he died.

Lindsey although unable to move his head, was conscious and carried on short sentences of conversation with his relatives until a few minutes before his death.

An autopsy performed by Dr. U. S. Abbott showed that Lindsey's death was due to a broken vertebra near the intersection of the spinal column and the neck.

Humane Society Seeking Parents of Deaf and Dumb Boy Found On Stege Beach

Baffling is the attempt of the Richmond Humane Society being made today to locate the parents of a deaf and dumb boy found wandering aimlessly around the beach at Stege. Not only can the boy not talk or hear, but he is also unable to write and the few signs which he makes are in large part confusing. He is about 10 years of age.

The only clue as to the lad's identity in the possession of the Humane Officer D. W. Calfee is that the boy makes signs pointing toward the upper part of the county. The officer believes the boy was brought to this section of the county by an automobile party from an interpretation he has placed upon signs the lad has made during the strange sign conversations this afternoon.

When the boy was found by

If you were a policeman,
And had found a small boy wandering on a deserted beach, at an early morning hour,
And after you had talked to the same boy for at least an hour,
And then found that he was deaf and dumb,
Wouldn't it make you want to jump in the bay?

That is precisely what happened to Officer Jennings of the Richmond police force today when he happened on a small urchin near one of the Stege beaches.

The kindhearted cop talked to the boy for some time before he found that the lad was deaf and dumb. He then removed the boy to the home of Rev. D. W. Calfee.

"To Observations Which Ourselves We Make, We Grow More Partial, for the Observer's Sake."

WARS TO MAKE MANY NEW AMERICAN ENTERPRISES

About $900,000 worth of abrasive materials is imported into the United States. With the exception of the diamond dust, used as an abrasive, probably every ounce of this material could be supplied from American factories or American mines.

Something more than $2,000,000 worth of automobiles and $144,000 worth of bicycles and motorcycles were brought into the United States in 1912. In the next twelve months, at least, trade of this sort will be strictly American trade.

Macaroni valued at $4,700,000, flour worth $665,000, salt entered at $364,000, stone, including marble and flints, which paid duties at a valuation of $2,132,000, coal worth $3,722,000, matches worth $510,000, copper and copper manufactures of a value of $35,843,000—all these, the producing profit of which has been abroad, will be supplied from American sources.

The $14,000,000 or $15,000,000 of fish which has been imported into this country every year will not be imported now. The American fisheries will supply the want.

Potash products, worth $10,900,000, which come to us every year, mostly from Germany, must be supplied by home enterprise. So, also, a great deal of the $10,000,000 of fertilizers. We import annually nearly $7,000,000 worth of coal tar dyes and colors. American chemists can, and doubtless will, meet this want that the war creates. The same thing is true of $4,000,000 worth of coal tar products "not medicinal and not dyes." The American cotton mills will supply the $7,760,000 worth of cotton clothes ordinarily bought of Europe every year. The $1,000,000 of rubber manufactures, the $10,700,000 of mineral and vegetable oils, the $26,700,000 of iron and steel products, will, nearly all, be marketed by Americans, swift to meet the demand which paralysis of European commerce is creating. Even the $1,600,000 of perfumes and cosmetics and the $7,000,000 of toys, brought here annually from abroad, can be supplied through American enterprises.

We are publishing these facts and figures, obtained from an official source, so that many people who are versed in these various lines, from the raw product to the finished article, may know what is coming in the immediate future and prepare to take advantage of some of these opportunities. These are only a few samples of the trade which will develop out of the wars now being waged. Business and industry in this country are slowly adjusting themselves to the conditions, but they are bound to move faster as supplies are exhausted and new industries are undertaken. Winter should and will see the predicted prosperity in full swing and a thousand new industries all over the land which this country has never taken advantage of before. The year 1915 is sure to be a record-smashing year for prosperity and opportunities in every line of endeavor.

We picked up an eastern paper someone had left in a ferry boat, the name of which we forget, and found the following, which ought to tickle Harry Hammond: "The Editor and Publisher, New York, tells of a country editor in California, namely Harry Hammond of the Byron Times, who got out a special edition of his weekly paper at a cost of $5,000. That man is either a genius or a galoot. Maybe a genius."

HERE IS GOOD NEWS FOR STOMACH VICTIMS

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by his treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Stomach Remedy is now sold here by the Richmond Pharmacy. advt.

No Need to Economize On Electric Lighting Or Gas

The People of the United States will soon emerge from the present crisis stronger in prosperity and mutual understanding than ever before.

In the midst of "war time" price advances the patrons of the public utility companies may secure that the important services rendered **will not cost more.**

Electric lighting and power service, gas service, street railway transportation and telephone service have **decreased steadily in price and advanced steadily in value** to the public during the last dozen years.

When international strife rocks the markets of the world, these public utility services remain low in price without impairment of quality.

Therefore, our customers do not have to worry about curtailing the service which we supply. They know there will be no increase in cost and that the service will be just as good—and better—than before.

Our organization is at your command. Telephone 115.

THE DESTRUCTION OF MYSTIC BABYLON

"Babylon Is Fallen! Come Out of Her, My People!"

The Typical Tower of Babel—Literal Babylon Typical of a Spiritual Empire—Babylon, Mother and Daughters—Golden Cup In Her Hand—Wine of False Doctrine—Antitypical River Euphrates—"The Way of the Kings of the East"—"Flee Out of Babylon."

PASTOR RUSSELL

Sept. 6. — The Photo-Drama of Creation is still being wonderfully used of the Lord to interest the public in Bible study. Through this beautiful collection of masterpieces of art the Scriptures are being opened to the understanding of all classes. Pastor Russell's text today was, "Declare ye among the nations, and publish; set up a standard; say, Babylon is taken."—Jer. 50:2.

The discourse began with an acknowledgment that the theme is one difficult to handle without giving offense, without being misunderstood, and that therefore the Pastor wished to express himself as kindly as he knew how to do. He realized that his message was "meat in due season" for the Household of Faith—one most important to be understood. He reminded his hearers that his responsibility is to speak the Word of God, and that he must not shun that responsibility.

The Pastor explained that there was no Babylon in the days of Jesus and His Apostles. The expressions in Revelation bearing upon Mystic Babylon were prophetic of conditions which have since risen in the church. He traced the word Babylon back to the Tower of Babel, which, he declared, was a type of Papacy. It was a wonderful structure, but never accomplished the designs of its founders. The manifestation of God's Power amongst the workmen in confounding their speech corresponds well with the Protestant Reformation movement and the various denominations into which Christendom has been divided.

Babylon Also a Type.

It was then shown in detail that the literal city of Babylon was a prototype of Mystic Babylon, which is pictured in Revelation as a spiritual empire, including the great kingdoms of earth—Christendom. Under another figure Mystic Babylon is represented by a woman and her daughters. Thus the various Protestant systems of Christendom are depicted. Though long separated from the Mother Church of Rome, these are still her daughters, partakers of her character and traits.

The Pastor reminded his audience that the language of Revelation is figurative, and does not signify that either Mother Church or her daughters are immoral. The thought is that the Church of Christ was primarily a virgin company, separated from the world—called to be joint-heirs with Christ in His Kingdom. To whatever extent systems arose amongst Jesus' followers and became affiliated with the kingdoms of this world, to that extent, Scripturally, figuratively, they committed harlotry; for they were espoused to our Lord and were to wait for His Second Coming, when they might become His Bride, Associate, in His Kingdom.

It cannot be questioned that Papacy became affiliated with the Roman Empire and sat down on the Roman throne; nor that the Church of England as one of her daughters, became affiliated with the British government and sits, representatively, in the House of Lords. It would not be questioned that the Greek Church experienced a similar betrothal and marriage to the Russian government. It is in this sense that the Church of Rome and her daughters—Protestant—are called by the family name of Babylon.

Babylon's Golden Cup.

The Pastor then discussed the picture of Mystic Babylon given by the Revelator. The golden cup in the woman's hand represents the Bible, the Divine standard of authority. It was misused when the wine of false doctrine was put into it—when the Bible was claimed to be authority for various erroneous teachings of the Dark Ages. The intoxicating drink which made the nations drunk and led them to call themselves Christian is still offered to whoever will receive it. But the nations are sobering up, and are less and less inclined to take the mixture.

The Euphrates, flowing through literal Babylon, represented the peoples and nations supporting Mystic Babylon by contributions and offerings. (Revelation 17:15.) The drying up of the waters might represent a cessation of revenue. In full accord with this Divine prediction of what is yet to come, we hear a cry from all denominations that their revenues are being dried up.

When foretelling the disaster upon Babylon, the Prophet Jeremiah gave the message to Israel, "Flee out of Babylon; deliver every man his soul." The descriptions of that destruction seem grossly exaggerated until we perceive that Babylon's overthrow prefigured the much more serious experience of Mystic Babylon. These tribulations will constitute a part of the great Time of Trouble with which this Gospel Age will terminate and the Messianic Age be ushered in.

CALDER TO DESIGN AUDITORIUM PANELS

DISTINGUISHED SCULPTOR WILL RECEIVE $8,000 FOR HIS WORK ON OAKLAND BUILDING.

OAKLAND, Sept. 8.—A. Sterling Calder, the distinguished sculptor who did most of the sculpture for the Panama-Pacific Exposition, has been engaged to design the panels and terra cotta decorations for Oakland's new $1,000,000 Auditorium. Calder will receive $8,000 for the work.

The facade of the auditorium will be most distinctive in its architectural effects. More than 400 feet long and of imposing height it is pierced by a number of arches backed by niches. The facade is of granite and the niches and panels will be terra cotta, beautifully modeled in symbolic designs.

Calder is well known as a sculpter both in the East and on the Pacific coast. He was the designer and sculptor of many beautiful groups of statuary which have given him much fame, and his engagement to do the work on the big auditorium is considered proof that it will be one of the most artistic buildings of its kind in the country.

State of California, County of Contra Costa, City of Richmond:

By virtue of and in accordance with the provisions of the Act of the Legislature of the State of California, approved March 6, 1889, providing for the assessment, levy and collection of assessments to meet the cost and expense of opening and widening streets, and according to law in such cases made and provided, in front of the City Hall, also called the Nicholl Building, in said City of Richmond, at 210-212 Washington Avenue, I, the Superintendent of Streets, as Collector of such delinquent assessments on property in the City of Richmond, County of Contra Costa, State of California, on Tuesday the TWENTY-SECOND DAY OF SEPTEMBER, 1914, between the hours of 10 o'clock A. M. and 3 o'clock P. M. of said day, to wit: Commencing at the hour of 11 o'clock A. M. of said day, the day and hour designated by said Act and myself, will sell to any person who will take the least quantity of land, or in case of an undivided interest is assessed, then the smallest portion of the interest so assessed; and pay the assessments and costs due, including fifty cents (50¢) for the duplicate certificate of sale for each lot, piece or tract of land, separately assessed and described, but in case there is no purchaser in good faith for the same, as provided in said Act, on the first day that the property is offered for sale, then when the property is offered thereafter for sale, and there is no purchaser in good faith for the same, the whole amount of the property assessed for which there is no bid, will be struck off to the City of Richmond and the duplicate certificate will be delivered to the City Treasurer and filed by him in his office, and that if the purchaser at said sale does not pay the assessments, costs and purchase price before 10 o'clock A. M. of the following day, then the property will be again offered and sold on the next sale day; that if any person shall refuse to make payment for any of said property so advertised for sale and purchased by him or her at said sale as required, then the said person or persons so offending shall not be permitted to buy again during said sale.

CAPITALIST SEEKS FACTORY SITE IN RICHMOND

CHAS. COOPER WILL MANUFACTURE BURGLAR PROOF WINDOW AND SASH LOCK.

Charles G. Cooper, a San Francisco capitalist with offices in the Phelan building, was in Richmond today on a mission that will probably result in a new factory for this city that may in time develop into a plant of importance.

Cooper was here to purchase from W. R. Gilmore, the apartment house owner, and associates, all their rights in the burglar proof window sash lock, invented and patented by Gilmore. The device is pronounced by Cooper to be absolutely effective and he says there will be a large sale for it.

Until a sufficient number of the locks have been turned out to permit and demonstrate them they will be made at a machine shop in San Francisco that has a press. The company has all its own dies. When the device is ready to be turned out in commercial quantities a small factory will be started here. It may in time employ quite a number of men.

Gilmore has been quite successful with patents, being a mechanical genius. He invented a locknut of great merit and a light shield for automobiles that is being widely used.

SEEK PARENTS OF DEAF AND DUMB BOY

(Continued from Page 1)

Police Officer Jennings he was eating cookies which the humane officer thinks were given to him by the automobile party which it is supposed brought him to Richmond.

At first the lad was inclined to be frightened at the strenuous sign attempts to converse with him, but later seemed to sense that everything was kindly meant and he grew composed. As a ruse to quiet him, signs were made to indicate that he was to be taken to his home.

So far though all efforts to find where the boy lives have been without avail. He will be kept in custody by Reverend Calfee until someone claims him.

The boy is described as being bright, in spite of his affliction, and it is surmised that he is from a farm.

The following is the description in detail of the boy issued by the humane officer: Height, 4 feet 5 inches; closely cut hair which is dark red (rusty brown); dressed in Buster Brown suit of brown material, trimmed in red; brown shoes and stockings.

HUBER IS TO RUN AS "WRITE IN" CANDIDATE

Evidently not satisfied with the results of the primary election, William F. Huber, who was a candidate for nomination as supervisor for the first district, is to make a race as a "write in" candidate at the general election.

At least this is taken to be the portent of an advertisement which he had inserted in the press today. The advertisement reads:

"William F. Huber for supervisor. Write his name in."

Huber finished third in the primary election. The two candidates who qualified were Warren McBryde, the incumbent, and Zeb Knott.

GERMAN CRUISER PURSUED BY BRITISH SHIP

HONOLULU, (H. T.), September 8.—The Matson Navigation Company's steamer Wilhelmina reported on arrival here today that she picked up a wireless message from the British dreadnought Australia, then in Hawaiian waters, saying that she was in full chase of the German cruiser Nurnberg, which left here September 1st.

The Nurnberg is a small cruiser of only 3450 tons and if overhauled would have no show with a dreadnought. Her main battery consists of ten 4.1 inch rifles.

It is believed here that the Australian cable to British Columbia was cut by the Nurnberg.

SEATTELE, Sept. 8.—The German cruiser Leipsic, which has not been sighted since August 19th, when she was off Cape Mendocino, Cal., is believed to be working her way to the Atlantic ocean by skirting South America. She can obtain coal and shelter there, and if chased into port by a superior force she can dismantle and tie up.

The British Admiralty has positive infromation that the Leipsic has left the North Pacific, and to show its feeling of security it has given up its charter of the fast Grand Trunk steamship Prince George, which was used as a scout ship when it was feared the Leipsic was bound north.

Transports are reported to be on the way from Australia with Australian and New Zealand volunteers, who will be landed at Vancouver and transported to the Atlantic Coast by rail.

The Japanese cruiser Idzumo, whose base is Esquimalt, is guardship off the California coast. The British cruisers Newcastle and Rainbow are protecting the entrance to the Strait of Fuca.

HOME OF CARNIVAL TITLE OAKLAND NOW SEEKS

The big three day Columbus Day celebration which will be held at Lakeside park on Lake Merritt, on October 10 to 12, has been indorsed by practically every large civic-commercial and fraternal organization in the eastbay cities and the fiesta this year will be the most elaborate and spectacular ever held in this section. Letters of invitation have been sent to all the booster organizations of the Pacific coast, such as the Padres of Panama of San Diego, the Knights of the Rose of Pasadena, the Royal Rosarians of Portland and the Tillicums of Seattle. The railroads will advertise the celebration and it is intended to make Oakland and the eastbay region known as the "home of the carnival and the playground of the west."

Among the committees already appointed are the leading men and women of the eastbay cities. The advisory committee is composed of 100 with H. C. Capwell as chairman. President Benjamin Ide Wheeler of the University of California is chairman of the literary committee and Paul Steindorff, is chairman of the music committee. Frank W. Bilger is chairman of the general committee, with Hugh Hogan treasurer and L. G. Bonzagni secretary. Charles J. Heeseman is chairman of the reception committee; George W. Austin of the pageant committee; Capt. William R. Thomas of the parade committee and Chief of Police W. J. Peterson and Sheriff Frank Barnet head the public safety committee.

The invitation committee is composed of the following eastbay mayors: Frank K. Mott of Oakland, F. Otis of Alameda, Charles D. Heywood of Berkeley, Charles Heyer of Hayward, J. J. Gill of San Leandro, Frank Roberts of Albany, W. H. Christie of Emeryville, Oliver Ellsworth of Piedmont and John F. Mullins, chairman of the Alameda county board of supervisors. Among the members of the publicity committee are the editors of all the Alameda county papers.

TRAVELERS SAY GERMAN TREATED AMERICANS WELL

TOURISTS RETURNING FROM WAR ZONE DECLARE THE FORMER AIDED THEIR DEPARTURE.

NEW YORK, September 8.—Several hundred passengers of the Holland-American liner Rotterdam, which arrived from Rotterdam today, signed a statement declaring false the reports that Americans had been ill treated in Germany. The statement closed with a request that a copy be forwarded to President Wilson and Secretary Bryan. The statement follows:

"The undersigned American citizens, passengers on the steamship Rotterdam, all of whom were in Germany during the present hostilities, ask the Associated Press, through its various channels, to give publicity to the following statement:

"That the reports regarding ill treatment of Americans by Germans, emanating from English and French sources, are absolutely false.

"Travel through Germany, as far as the extraordinary corcumstances permitted, was altogether safe, as officials and all classes of the people were, without exception, very friendly and helpful.

"No atrocities were perpetrated by the German troops.

"All of the German official bulletins regarding the progress of the war were in every case subsequently confirmed, and thus the reports coming from English, French and Belgian sources disproved.

"In our judgment the distorted reports which have reached America were sent out with the deliberate purpose of deceiving Americans and thus creating a sentiment in favor of the powers now arrayed against Germany.

"We ask all Americans to suspend judgment until they have had an opportunity to make an impartial investigation of the causes which have led to the present conflict, and especially to study the diplomatic correspondence. It is our conviction that Germany has not been the aggressor, but that the war has been forced upon her by the envy and greed of those nations that are jealous of her growing industrial and commercial importance, and for this reason are ready and anxious to destroy her as a people.

"We hereby request the Associated Press to forward a copy of this paper to the President of the United States and the Secretary of State."

RICHMOND UHLANS ROUT ANTIOCH TEAM SUNDAY; CAPTURE ALL PLAYERS ALSO GAME

COUNT VON INGRAM AT HEAD OF DEFENDERS PUTS TO ROUT INVADERS BY ANNIHILATING TEAM AND GRABBING GAME 7 TO 4.

O'HARA AT THE GAME

Cornelius O'Hara of Richmond,
By the baseball gods he swore,
That the team of Richmond Elklets,
Should suffer wrong no more.

Now the manager's face was sad,
And the manager's voice was low,
And darkly looked he at the sky,
And darkly at the foe.

He thought of all the gitnies
That had rolled into his hand,
He also heard the playing of
The Richmond Concert Band.

Then out spake brave old "Billy Luce"
The guardian of the gate,
"To every man upon this earth,
Fame cometh soon or late.

And how can man die better,
Than facing fearful odds,
By putting the wheels to the Antioch team,
Ye gods, ye gods, ye gods.

Perhaps it was the reciting of this famous blood curdling Roman ballad, perhaps it was the silver throated voice of Howard French or perhaps it was the fact that O'Hara swore but whatever it was the Richmond Uhlans, covered with their batting armor went through the Antioch dragoons so fast that it resembled more than anything else a war correspondent's story of the battle of Liege.

Then they awoke.

And with their awakening in the last of the ninth frame were quickly brought to their senses by the dazzling figures on the score board which showed that the locals had been making each swat of the willow count with the result that the score stood as follows:

Richmond 7; Antioch 4.

Flank Attack.

In the sixth frame following the capture of a stray ball on the outposts by a small freckel faced urchin from the bat of Riseberg of the river town which netted his squad one run; Count Von Ingram at the head of his Killemquick regiment trotted out on the plains before the eyes of many smiling, blushing damsels, whose merry giggle at the thought of a battle was nonsensical, time worn fans whose shoulders had acquired a sloping aspect from the rainbow manner in which they had watched former contests and many of the younger generation who aside from talking about the circus signs busied themselves with making life miserable for the popcorn venders.

When all international courtesies had been thrown to the winds the order to charge was given by the "Umps," Woods and Peralta.

Mowed Down Like Grain.

As fast as the men from the town of fresh fruit and vegetables came to the front or poked their willow muskets at the directed fire of Rapid Fire Horsehide Shooter Burns they were mowed down.

Gunner Burns who had been using shrapnel during the opening part of the battle changed toward the end to his rapid fire "whizzers" which were even more affective than were the bombs dropped by German zeppelins.

One Injured, None Dead.

Riseberg, the Antioch player, with the aviation name, happened by chance to forget the first rules of battle, of keeping out of sight, and accidently stepped in front of one of those rapid fire incurve shoots of Gunner Burns which caused him to move at a very lively gait for a few seconds.

Truce Declared.

Childs and Pingree who have been at outs for some time as to which could hold the biggest mouthful of tobacco, yesterday declared a truce in their long standing grudge in that both were credited with having made two errors.

The box score of the game as compiled by the scorekeeper follows:

STARTING A HIGH SCHOOL DEBATING LEAGUE

A new high school debating league is now being organized by the Bureau of Public Discussion of the Extension Division of the University of California. This league will be open to all secondary schools in California. The state will be divided into a northern and southern division and each division will be subdivided into districts or groups. By a number of series of debates two champions will be selected, one from each part of the state. The two winners will then meet in Berkeley for a final debate to determine the championship of California. Suitable prizes will be awarded to the school winning the state title.

The debating league will be under the direction of the University Extension Division, which will determine the questions for debate and will match the schools for each series. It will act also in the capacity of arbiter for all disputes or protests that may arise between contestants.

Many state universities, notably Minnesota and Kansas, have been successfully conducting high school debating leagues for a number of years. A similar league, under the direction of the University of California is expected to prove of much practical value in connection with the work in public speaking in the high schools of California. This new movement is receiving the support of many of the leading high schools in the state and promises to do much to aid work in debating throughout California.

Bulletins containing the constitution of the league and detailed information are obtainable by writing to A. Howard Hankey, Acting Secretary of the Bureau of Public Discussion, University Extension Division, Berkeley.

Whirlpool SANITARY DISHWASHER

SEE WHAT SCIENCE HAS DONE FOR ME

after 3000 years of kitchen drudgery. The much-needed rest of the Housewife has at last arrived. The invention of the

Whirlpool Sanitary Dish-Washer

saves health, time and nerves and preserves hands and complexion. At Last

Woman's Emancipation

is here. A delight and an indispensable aid to those who have already used them. Just six minutes to clean, polish and dry the china, glassware and silver of a dinner for eight people.

No contact with hot water, steam or hot soapy suds. Self-cleansing, sanitary, no pump used. Small in size, easily lifted and carried. Strongly built of stamped metal.

Can be purchased on easy payments. Write for our plan.

Sent prepaid, returnable at our expense within ten days, if not exactly as represented.

It has a capacity sufficient to wash at one time all the dishes of the average family, yet is so light and portable that it can be easily moved from place to place.

The movement of the handle forward and backward revolves the propeller in the bottom of the washer, which dashes the hot soapy water with a swirling effect around, through and over all the dishes, forcibly attacking them at all points, and cleansing them with absolute perfection on all sides. The dishes are completely washed in less than one minute's time and the washer works so easily that a child can operate it.

Turning down the small lever at the top of the washer, opens drain valve and discharges the water in a few seconds. The dishes are then rinsed and sterilized by pouring a dishpan of clear boiling water through the lid and turning the handle about thirty seconds. The rinsing operation automatically cleans the washer itself, which always remains in an absolutely sanitary condition.

Beautifully illustrated booklet showing every phase of the Whirlpool Sanitary Dishwasher sent on request.

Thousands are being sold by leading stores in Philadelphia, New York, Chicago, St. Louis and other large cities. The Whirlpool enjoys a monopoly of the market, and furnishes agents the best opportunities for quick money making available anywhere.

If This--Why Not This?

HITTING the telephone does not improve the service. When a man's watch fails to keep time properly he consults an expert—a watchmaker. Yet many, when the telephone does not work as they think it should, hammer the instrument, which is just as delicate and complicated as a fine watch.

We realize that your telephone is as liable to get out of order as your watch, automobile or sewing machine, and we therefore maintain a force of expert instrument men whose duty it is to keep every telephone in perfect working condition.

NOTICE OF PUBLIC WORK

NOTICE IS HEREBY GIVEN That the Council of the City of Richmond on the 31st day of August, 1914, passed Resolution of Intention Number 232, to order the following work to be done, in the City of Richmond, County of Contra Costa, State of California, to-wit:

That Fourteenth Street, from its present termination at the south line of Lot Forty-one (41) of Block One Hundred Thirty-two (132) as said street, lot and block are designated and so delineated upon that certain map entitled "Amended Map of the City of Richmond" filed in the office of the County Recorder of the County of Contra Costa, State of California, March 31, 1905, be opened and extended northwesterly to the south line of Roosevelt Avenue.

That the lands necessary to be taken and acquired for said purpose are described as follows, to-wit: Beginning at the Southeast corner of Lot Forty-one of Block One Hundred Thirty-two (132) as said lot and block are designated and delineated upon that certain map entitled "Amended Map of the City of Richmond," filed March 31, 1905, in the office of the County Recorder of the County of Contra Costa, California, thence running northwesterly along the northeast boundary of said lot to the South line of Roosevelt Avenue, thence westerly along said line of said avenue 32.5 feet to the northwest corner of Lot Eight (8) of said Block, thence southeasterly 105.15 feet to the southwest corner of said lot Forty-one (41), thence east along the south boundary of said lot Forty-one (41) to the place of beginning, containing an area of 4575 square feet, more or less; and being all of said Lot Forty-one (containing 2950 square feet) and the half of said lot Eight (8) lying northeast of a line from the northwest corner to the southeast corner of said lot Eight (8), said half containing an area of 1625 square feet.

And said Council does hereby determine and declare that said proposed work and improvement is of more than local or ordinary public benefit, and will affect and benefit the lands and district hereinafter described, and which said lands and district are hereby declared to be the lands and district affected and benefited by said work and improvement, and that therefore the entire damages, costs and expenses of said work and improvement shall be and are hereby made chargeable against and shall be assessed upon said lands and district, which lands and district is entirely within the City of Richmond, County of Contra Costa, State of California, the exterior boundaries of which lands and district affected and benefited by said work and improvement are particularly described as follows, to-wit:

Beginning at the northwest corner of Lot Nine (9) of Block One Hundred Thirty-seven (137), as said lot and block are delineated upon said "Amended Map of the City of Richmond:" thence running in a direct line to the southeast corner of Lot Eight (8), said block One Hundred Thirty-seven (137); thence southerly along the southwesterly line of the right-of-way of the Southern Pacific Company to the southeast corner of Lot Eighteen (18) of Block One Hundred Thirty-three (133); thence southwesterly in a direct line to a point on the north line of Lot five (5), Block Sixty-three (63), which point is 12.5 feet easterly from the northwest corner of said Lot Five (5), Block Sixty-three (63); thence southerly in a direct line to a point on the south line of lot Nineteen (19), Block Sixty-four (64), which point is 12.5 feet easterly of the southwest corner of said Lot Nineteen (19), Block Sixty-four (64); thence westerly in a direct line to a point on the south line of Lot Nineteen (19), Block Fifty-nine (59), which point is 12.5 feet westerly from the southeast corner of Lot Nineteen (19), Block Fifty-nine (59); thence northerly in a direct line to a point on the north line of Lot Five (5), Block Fifty-eight (58), which point is 12.5 feet westerly from the northeast corner of said lot Five (5), Block Fifty-eight (58); thence northwesterly in a direct line to the southeast corner of Lot Thirty-six (36), Block One Hundred Thirty-two (132); thence northerly in a direct line to the southeast corner of Lot Four (4), said Block One Hundred Thirty-two (132); thence westerly in a direct line to the southwest corner of Lot One (1), said Block One Hundred Thirty-two (132); thence northerly in a direct line to the northwest corner of Lot Nine (9), Block One Hundred Thirty-seven (137) aforesaid, and point of beginning; all of said lots and blocks being as the same are designated and delineated upon the aforesaid "Amended Map of the City of Richmond;" saving, excepting and excluding from said district all public streets, avenues, lanes, alleys, crossings and places therein included and contained, and also excepting from said district the land to be taken for said improvement.

That all of the said work or improvement to be done shall be done under and in pursuance of an act of the Legislature of the State of California, entitled "An Act to provide for laying out, opening, extending, widening, straightening, or closing up in whole or part, any street, square, lane, alley, court or place within municipalities, and to condemn, and acquire, any and all land and property necessary or convenient for that purpose, approved March 6, 1889" and all acts amendatory thereto.

Reference is hereby made to said Resolution of Intention Number 232 now on file in the office of the Clerk of the City of Richmond, for further particulars.

DESCRIBES SCENES CAUSED BY WAR IN EUROPE

BERKELEYAN TELLS OF THE ALARM IN SWITZERLAND AT THE RECENT DEVELOPMENTS.

An interesting side light on conditions in Switzerland owing to the European war is given in a letter received yesterday by Mr. and Mrs. W. W. Henry of Berkeley, from their daughter, Countess Evelyn Henry Stoppani, now at Zermatt, in Switzerland. The letter, dated August 7th, has been a month in transit. Mme. Stoppani, who may enlist as a nurse, writes:

"Here is Zermatt, a tiny village, matters did not look serious until August 1st. Since then, in five days, over 400,000 Swiss have mobilized, including all the young men in the country. Each man, however humble, is anxious to protect his country's liberty and neutrality. This means they must protect themselves from being used by fighting countries as a road over which soldiers may travel. Foodstuffs are alarmingly scarce already, and this little country is full of English, American and Italian tourists. The moot question was—shall Americans and English try to reach their countries? With the contradictory fears and rumors there are plenty of pathetic scenes.

"Monday was a very grave day in Zermatt. Italy had recalled from Switzerland her men. Always there has been some feeling between the Swiss and Italians over a bit of country belonging to the latter. Italy's act boded no good. France and Germany have not yet renewed their neutrality treaties. These calm mountain men look very solemn, the uniformed soldiery pace stolidly up and down, and the women as they go to and fro to their tasks are silently weeping.

"The Teodul Pass, near here, would be the road by which all invading army would enter Switzerland from Italy. Small wonder that the shops are closed and the shopkeepers turned soldiers. All the hotels are closed but this one (the Grand Hotel Mont Cervin). With no blame attached to them, the Swiss will be reduced to poverty by this war, as indeed thousands of the middle class already are ruined with the destruction of the season's business. During this war the little republic must support 400,000 men under arms, to be sure that neither France nor Germany break their oath of neutrality. The English tourists met last night to form a mutual aid society. There is no telegraph service and no mail."

There are several ways of making lasting enemies, but giving a boy the worst of it is probably the surest.

BRITISH ARREST GERMAN TOURISTS ON MANCHURIA

GLOBE TROTTERS AND RESERVE OFFICERS TAKEN OFF LINER MANCHURIA IN ORIENT.

The cabled report that forty German and Austrian subjects were removed from the Pacific Mail liner Manchuria at Hongkong and held prisoners of war by the British was confirmed by officers of the Pacific Mail liner China, which arrived here yesterday afternoon from the Orient.

According to Captain Hans Thompson of the China, the arrests were not confined to those who held commissions in the reserve armies of Germany and Austria. A number of German and Austrian tourists who were merely globe trotters were included in the crowd of passengers that the British unceremoniously took off the American liner.

Following the arrests, which were made while the Manchuria was inside the British port of Hongkong, the prisoners were taken to Stone Cutter island and confined. Among them were several women and children.

The China, too, was subjected to restrictions, according to the officers. Upon her arrival at Hongkong the liner was boarded by the British officials, who ordered that her wireless aerials be taken down and the apparatus sealed. During her stay in the port the China was under the espionage of a British torpedo boat. Martial law prevailed at Hongkong, and no vessel was permitted to enter or leave the harbor after darkness set in.

As the China was leaving Nagasaki the passengers were given a thrill by the presence of a large fleet of Japanese warships. The fleet was under way at the same time as the China, and steamed out in formation, destined, it was understood, for Tsing-Tap to bottle up the German squadron at that port.

ARRANGING TO ENTERTAIN ALL VISITORS TO FAIR

SACRAMENTO CHAMBER OF COMMERCE WILL HAVE ROOM-LISTING SERVICE.

Visitors to the State Fair at Sacramento, September 12th to 19th inclusive, need have no worry about possible trouble in securing reasonable-price accommodations, as the Chamber of Commerce of that city will again carry out its regular room-listing service during the Fair, for the benefit of strangers to the Capital city. In order to rent lodgings, the visitor will call at the Chamber of Commerce rooms, 918 Sixth Street, tell the clerk in charge what accommodations are desired and what it is desired to pay, and the clerk will refer to his card index—every room listed having been personally inspected by the Chamber's representative—and find something that fills the requirements. There is no charge for this service, and a minimum price for good, clean quarters prevails.

The ordinary difficulties in securing rooms at the time of the fair or convention are not usually due to lack of accomodations so much as to lack of means of bringing the rooms and the room seekers together. This difficulty is eliminated at Sacramento, as the Chamber of Commerce will remain open at night during and just before the State Fair to carry out the room-listing service and make it of value to late arrivals in the city. The service has done much towards making the State Fair a "finished product" in every sense of the word, for at such an exposition one's personal comforts outside the Fair grounds itself count as much towards the enjoyment of the visit as do the perfection of the exhibits and the management of the fair.

SUPERINTENDENT HYATT URGES TEACHERS TO AID IN MAINTAINING NEUTRALITY

People connected with the Richmond educational system received a communication this morning from Edward Hyatt, state superintendent of public instruction, containing a sincere appeal to all teachers, trustees and other interested in school work, to aid in maintaining the neutrality of the United States during the European conflict. Especial emphasis is laid upon trying to prevent patriotic feelings estranging the children of the different nationalities.

"Take special pains to smooth away disputes among the young people and try to prevent the children of one race from pitting themselves against those of another," are the superintendent's words. An axiomatic statement in the communication is: "Living for one's country is better than dying for it—and harder."

Superintendent Hyatt's communication is given full below:

"Ladies and gentlemen, the President of the United States has requested the people of this country to refrain from showing partiality during the progress of the European War. It is a patriotic duty of all of us to do all that we can in furthering and supporting this policy of our chief executive.

Each of the warring nations has sons and daughters in this country. They and their children are in our work shops, on our farms, within our schools. They are a part of us. Discord and hard feeling among the elements of our people is dangerous at this time. The most enlightened and powerful nations have forgotten their civilizations and are at each other's throats in a death clutch. There is an opportunity for our country to conserve the peace and safety of the world at this junction by simply preserving its own equilibrium.

It is eminently fitting that the schools should do their share in promoting harmony and in avoiding causes of conflict. A little dispute leads we know not where. It is proper then to call upon the school people of California to be wise and far seeing in avoiding possible race prejudices and race conflicts brought from over the sea. Postpone discussions, debates and contests touching the causes or merits of the war until the war has closed, until man recovers his senses. Take special pains to smooth away disputes among the young people and try to prevent the children of one race from pitting themselves against those of another. Teach the doctrine that we are all Americans here, with one country, one flag.

Now is our moment to put forward the idea of patriotism, civic patriotism, as opposed to the patriotism of war. Patriotism does not necessarily move to the music of the fife and drum. Living for one's country is better than dying for it—and harder. There are other heroes than those at the cannon's mouth. It is a splendid contrast, this nation, made up of individuals from each of the warring worlds, yet moving steadily ahead, helping, building up, not destroying, not tearing down the things that humanity has accomplished in the long march of the Centuries.

Is it not a worthy task, to keep the feet of a hundred million people in the paths of honest industry and away from the gory fields of war?

EUROPEAN WAR PUTS UP COAL-TAR DYE PRICES

Manufacturers using dye colors that are products of coal tar, which comes mainly from France and Germany, are facing a serious shortage in this important commodity.

The principal coal tar dyes used locally are black anilines, spirit soluble bles, direct cotton browns and yellows and base blacks, and the industries chiefly affected are manufacturers of shoe polishes and dyes, printing inks, woolens and paint, besides dyeing and tanning establishments.

Basic colors that before the European war were quoted at $3 to $4 a pound are now $6 to $10 and even at these prices many dealers who did not carry large stocks are unable to secure any at all.

"Men in the employ of the Government and the larger companies are receiving three-fourths of their usual wages. No debts have been canceled, and there is an unofficial agreement among merchants not to press their obligations too far. On the day of mobilization the prices of groceries increased very rapidly as a matter of speculation. The Government published a list of prices and made it obligatory for all merchants not to exceed the price quotations. But few merchants tried to deviate from the fixed prices."

Professor de Hass made a special study of the economic effects of the mobilization, particularly with reference to the monetary situation. He says that there was a noticeable difference in money matters, although the closing of the exchanges made the situation more bearable. The banks could not ask for any refund of loans. There was a decided lack of small change, for many hoarded their nickels and silver. The Government printed emergency money of small denominations, which is now circulating freely, and in this way acquired the confidence of the people.

BAKING CONTEST TO BE HELD THIS EVE

A baking contest is to be held in A. O. U. W. hall this evening at which each contestant will be requested to bring a cake, pie or other pastry made of California products.

PARIS NEWSPAPERS NOW SINGLE SHEETS

The latest Paris newspapers received in San Francisco are reduced from the usual bulky form to single sheets, innocent of advertisements in most cases, without editorials and given over entirely to news of the war. The censor has replaced the ordinary editor and the French war news consists almost entirely of official announcements. Some letters from the front are published, but they contain no identifying names or places, regiments or officers.

The journals complain bitterly of what they term the false war news sent abroad by the German government. In particular Le Depeche asserts that Swiss and Italian newspapers have been flooded with falsehoods from Germany calculated to inflame Switzerland and Italy against France.

Some news is published which has not found its way over the cables to this country. Le Martin of August 17th publishes a letter from Ricciotti Garibaldi, son of the Italian patriot, who joined the French forces in 1870, offering to take his father's place in the present war and to raise 40,000 men to aid France.

According to the same paper the Minister of Finance has made arrangements for regular money payments to families whose sole support, either father or son, has been taken away by the army. The Union of Syndicates of the Seine has established soup depots in Paris and surrounding towns and is distributing 24,000 free meals daily. The postal department has issued a new 10-centime stamp to be sold for 15-centimes, the difference to be paid into the funds of the Red Cross.

"ROOKIES" TROUNCE ALUMNI 11 TO 3

The Alumni rugby fifteen was defeated by the Richmond High school "Rookies" on Saturday afternoon by a score of 11 to 3.

The high school team shows that in its backfield are combined both speed and cleverness while its scrum which has to bear the brunt of attack will have to be coached some time yet before it will be able to do justice in a scheduled game.

Coach Kelly is confident that with one week more training that his prodigies will top any of the other pigskin chasers in the Centerville Academic league.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs Kidneys then Back hurts and Bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidney active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble. —Advt.

HOLLAND MADE RECORD TIME IN MOBILIZING

PROFESSOR DE HASS TELLS OF CONDITIONS IN NETHERLANDS AFTER THE WAR STARTED.

STANFORD UNIVERSITY, Sept. 7.—"Although Holland is not engaged in actual strife, the country has suffered all the economic and industrial stress incident to war times," said Professor Anton O. de Hass of the Stanford faculty, who has returned from the scene of the strife in Europe. Professor de Hass has been traveling in Europe during the summer for the California Immigration Commission and was visiting in Holland during the first mobilization.

"The mobiliziation started on a Friday night and was completed in record time. The German papers were greatly impressed with this record-breaking mobilization in Holland, which good showing in this respect was probably instrumental in saving the country from invasion," said de Hass this afternoon.

"All the industries were stopped and the banks were closed. The Government confiscated all the coal found in the country because of the inability of the one coal mine in the country to supply even the principal cities.

"Holland is safe so far as the food supply is concerned," believes the Stanford professor, who rushed home from the scenes of war to take up his classroom duties. "The closing of the foreign market is affecting the domestic market, but foodstuffs are extremely low. The Government is paying a weekly allowance, however, to the families of the men called to war.

OWNERSHIP OF CONTRA COSTA COUNTY HOMES

There are 2733 rented urban homes in Contra Costa according to the United States Census Department of Washington which has just issued a bulletin dealing with the ownership of homes. An important statement in the census report is that there are 6795 homes in the county. Of this number 1421 are farm homes. The farm homes owned by their occupants free of mortgaged incumbrances are 681. The mortgaged homes number 227. Renters occupy 504 of the farm homes.

Out of the total of 6795 homes in the county 5374 are urban homes and there are 2474 urban home owners in the county. Of this number 788 are mortgaged and 1638 are free of incumbrances. There are 2733 rented urban homes in the county.

On a small percentage of both rural and urban homes the census enumerators were unable to secure data pertaining to their ownership.

MARTINEZ MEN RESPOND TO FRANCE'S CALL

PARIS TO BE CEMETERY OF GERMAN POWER SAYS TRICOLOR PATRIOT.

MARTINEZ, Sept. 8.—"It will be a war to the death between France and Germany," declared Ernest Crouzeiles of the Martinez French laundry, as he was about to take his departure for France to serve his country's defenders in the reserves.

"The French army will take its last stand in the Pyrenees," he continued, "before the nation will capitulate to the Kaiser."

"But," he added more hopefully, "England controls the seas and England will never surrender. Now that she has gone into the war Russia, too, will shortly be at Berlin and the German army that is now in France will never be able to get out of the country. Germany has become desperate and massed her strength to destroy her ancient enemy but in doing so she has gone to her own destruction. France will be the cemetery of German power."

Three weeks ago Clement Barbaste, another employe of the Martinez French laundry, departed to serve under the tri-color of France.

LILLIAN ROUSE IN JOAN OF ARC ROLE

HELPS BROTHER FIGHT GERMAN WITH PORTUGESE ALLY; POLICE ACT AS MEDIATORS.

In the battle of individuals of many nations in Watts tract, Oakland, yesterday, one of the belligerents was a 14-year-old girl, a Richmond resident of Russian descent. This was Lillian Rouse who formerly lived at 506 Bissell avenue. She responded as a reservist when her brother seemed in a fair way of being annihilated by a German force.

The battle started following an argument between Lillian's brother, Hanse, with August Schram, a German, about the European war. To emphasibe one of his points, Schram punctuated his remarks by puncturing an eye of his opponent. Lillian threw herself at her brother's enemy, scratching and biting, and at the same time shouting "murder."

Surprised by the re-inforcements Schram turned to administer punishment to the Joan of Arc exponent. The German's tactics aroused the anger of William Lee, a Portugese and a cripple. He broke the neutrality laws by taking a hand in the melee. When he charged upon Schram.

Despite the odds of 3 to 1 Schram was holding off the allies with all the vigor of force of Uhlans when William Lee's brother, Joe, declared war and joined the united forces. By this time all of the Watts tract residents had assembled and were declaring their intention of mixing in the melee in as many languages as there are nations in Europe when an Irishman started into the act as a mediator. He turned in a riot call.

Lieutenant William Woods, an Australian Sergeant Hemphill, a German; Sergeant Robert Forgie, a Scotchman, and a wagon full of policemen of various nationalities rushed to the scene and took Schram and Rouse prisoners of war to the police station.

Schram is accused of having used a weapon not permissable according to the police code. It is charged that he drew a revolver and placed it against Joe Lee's person just as the police arrived.

With her eyes flashing defiance, Lillian explained her part in the Sunday battle today, by saying: "He hit my brother; I hit him." Feminine like she was indifferent as to the cause of the trouble, but muchly interested in its eventualities, eagerly inquiring what the police would do with her brother and Schram.

To Leave for Bodega.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to thehair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. —advt.
